Wendy Dixon  
To Calmoseptine

Huntington Beach, Ca. 92649

Dear Mr. Dixon

I was introduced to your product Calmoseptine at Cedar Sinai Medical Center when one of my foster children was hospitalized. The baby developed a diaper rash while hospitalized and was treated with Calmoseptine. I was given the remainder to take home. Another child I have had a diaper rash that bled. I decided to try your product & haven't stopped its ABSOLUTELY FABULOUS.

I'm told my pediatrician about it and my daughter in law who just had a baby 3 weeks ago along with 2 other friends that do Foster Care - The 1940's were great -

Thank you,  
Yours truly,  
Linda Dixon
