

Skello!

19 July 99

My name is Jennifer
I'm writing in regards
to Calmoseptine.

My 9 1/2 month old is teething
and got the worst diaper rash
I have ever seen in my life.
I tried Bag Balm, corn starch
balmex and Desitin. Nothing
worked so I called his
pediatrician cause his bottom
was bleeding by this time.
He told me to use something
with zinc oxide so I tried
Calmoseptine and within 1 1/2 days
his rash is 95% better.

Just thought I'd let you
know that this is a great
product and I greatly appreciate
you sending me some free
samples.
