

Dear Mr. Dutton

10-12-94

I have no fancy letter head, or elaborate computer fonts.

I need only plain ledger paper to make my statement.

Calmoseptine ointment is the best diaper cream available!

My daughter is 18mo old. She never had a single diaper rash until I ran out of calmoseptine and was unable to obtain more from my pharmacy. After trying 3 other so called "diaper creams", I called you in panic. Actually, it was more exhaustion as my daughter was up half the night crying with diaper rash.

Thanks to your immediate response I had 2 jars of calmoseptine within 18 hrs. My daughter diaper rash was gone within 30 hrs of calling you.

I'm really impressed by the effectiveness of your ointment but I don't want to under state your help in my obtaining your product.

With my appreciation

Beggs
