

June 23, 1995

To whom it may concern:

I wish to convey the experience we have had in using the product Calmosyptine Ointment. My daughter has terminal cancer and we have been using the above product ~~since~~ since May 17th 95. I was advised that this product would help dry up ^{up} helpings to prevent bed sores. My wife and I found that to be true, and proof in the product is using some.

Thanks again

It has helped my daughter to be more comfortable.
