Hi!

My name is Lisa [redacted] and I work as a medication and treatment nurse at Sunrise Care Center Garfield in Huntington Beach. I wanted to let you know that we are faithfully using your product and will continue to do so. Our large company is trying to get nurses to stop using it, and replace it with a lower quality, cheaper "equivalent" to help cut costs and meet budget standards. However, we (nurses at Garfield) have fought and won to keep your product on our formulary permanently. After all, there is no equivalent and nothing else works as good as it does. I have seen the results myself, as well as doctors, wound care consultants and family members. My sister is now using it religiously on her 9 month old infant with diaper rash. Anyways, I just wanted to let you know you have a great product and we will continue to use it as it is the best product for the job! Thank You,
Signed, Lisa [redacted]
