RE: Calmospetine Ointment

Dear Wendy,

On August 21, 1985 my husband, Jerry, had an IAP (Ilieo Anal Pullthrough) at St. Joseph's Hospital in Orange.

St. Joseph's has a support group for the patients with this type of procedure. It has at times been headed by ET Nurse Betty [redacted]. At one of these meetings, your product, Calmoseptine Ointment was introduced. A lot of the patients have or get irritation in the rectal area. At this particular meeting, when concluded, we all went to St. Joseph's Outpatient Pharmacy and pruchased your product. Hoping it was better then Desitin or such product, we bought a couple of jars.

What a G-d send your product was and is. It helped my husband immediately and continues to be a superior product. I want to thank you for making such a fine product and making my husband so much more comfortable.

Please keep you the good work. Calmoseptine is tops in our book.

Sincerely yours,

Marla
