

9/12/95

DEAR WENDY,

I've been meaning to write to you to tell you how wonderful your product, Calmopeptide Ointment, has been for me.

I had an ilio-anal anastomosis performed in March of 1994. Although I tried a number of preparations recommended by my physician and other people who had the same surgery as I did, the only product that gave me any relief and promoted healing in irritated areas, was Calmopeptide Ointment. I found its "cooling" effect to be particularly soothing. None of the other products I tried came close to providing me with the comfort and relief I found with Calmopeptide Ointment.

I still use it a number of times daily. In fact, I always carry a tube with me no matter where I go.

Thank you for providing a superior product.

Sincerely,  
Judith
