

March 12, 1993

Dear Wendy,

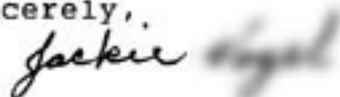

I'm writing this letter to say thank you, to you and your father for producing such a superior product as Calmoseptine Ointment. I was recently introduced to your product by a Pediatric Surgeon at Loma Linda Hospital. My grandson had rectal surgery to correct a birth defect and had a lot of irritation and raw skin around the anus and buttock area. Calmoseptine cleared the problem up in just a few days. We continue to use it to prevent further irritation. It works wonderfully.

I raised my three children without the benefit of this great product, which would be great for the prevention of diaper rash. It adheres to the skin and stays in place, and aids in healing.

I hope this product will be readily available, over the counter in the near future, so it can receive the praise and publicity it deserves.

Thanks again.

Sincerely,

Jackie
