Wendy Dixon, R.N.  
President,  
Calmoseptine, Inc.

[REDACTED]  
Huntington Beach, CA 92649

Dear Ms. Dixon:

I would like to congratulate you on a wonderful product. Samples of Calmoseptine ointment were sent to my office several months ago. I have used it around gastrostomy tube sites for irritation and leakage, with very good results. However, I am a new parent; and when my son developed severe diaper rash, I tried multiple products which had been recommended by the pediatrician. Several days later I remembered your Calmoseptine samples, and tried it; and within 36-48 hours he was dramatically improved, and no longer crying in pain with his diaper changes.

I have given copies of your brochures and samples to our pediatrician, and have sung praises for your ointment. I have also placed a tube at the daycare, and have encouraged the workers there to recommend it to the parents of other children.

I also would like to commend you on being president of Calmoseptine, Inc., as we need more women leaders and presidents of businesses.

I wish you continued success with your product, and I have recommended it to at least two of the pharmacies in Williamsburg, specifically K - Mart and Berkeley, to stock your product.

If you wish to send additional samples to the pediatrician, since I shared mine with her, she is Dr. DeAnna [REDACTED] Williamsburg, VA 23185.

Sincerely,

Sandra E. [REDACTED] M.D.
