RE: Calmoseptine

Dear Ms. Dixon,

I have been using Calmoseptine regularly for irritated skin around G-buttons and on diaper rashes, more recently. I have had great success and good patient acceptance. The biggest problem that we have had is finding this stuff locally here in Omaha. The company has been kind enough to send boxes of strips of foil containers and samples that we can hand out, but these can only go so far.

We will continue to actively promote your product which works quite well. We would appreciate it being better stocked here in Omaha.

Sincerely,

Gary S. ~~SMITH~~ M.D., F.A.A.P.
