Dear Ms. Dixon:

Thank you for taking the time to help me find a pharmacy that would obtain your Calmoseptine Ointment. I have contacted the pharmacies that you suggested, and will get the ointment from one of them.

Prior to speaking with you, I had obtained a sample from a home health nurse. I had tried several products, but none seemed to have any effect on my son's teething rash. Within 3 days of using your product, his rash cleared up. I have used it several times on his stubborn rashes, and it has worked where nothing else would; and worked every time!

You ought to try giving samples to pediatricians, I'm sure every mother who tries it will love it!!!

Very truly yours,

Holly [REDACTED]
