Wendy Dixon
Calmoseptine Inc.
Huntington Beach, CA 92849

Dear Wendy:

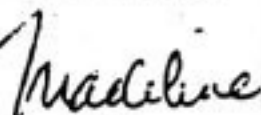

This will confirm our telephone conversation of yesterday. A sample of your product Calmoseptine ointment was recently sent to me by Edgepark Surgical Inc.. To my grezt joy this product was exactly what I needed.

I am a 79 year old woman who has had a colostomy for 17 years. I irrigate regularly and have had few problems except for an occasional skin rash around my stoma. All other products that I have used to alleviate this problem, such as vaseline, calomine lotion, etc., have two problems in common - my Hollister pads slip off and it takes several days to heal ^{the} rash. Not so with Calmoseptine - my rash was cleared within one day and my pads have stayed on.

At your suggestion I have ordered a jar of Calmoseptine from Edgepark since I could not find it locally. However, I would enjoy receiving more samples from you which I can carry with me when traveling.

I enjoyed talking with you and hope my comments may be of help to you in promoting Calmoseptine. Good luck.

Sincerely,

Madeline
