Dear Wendy,

See our phone conversation this morning just a short account of my wonderful luck with you. I worked in the Pet & Hospital thing able to see in the future & able to find it a bit more stability.

I called College Pharmacy in Newark, Costa Mesa and was able to find they had 1 year & 1 tube on the shelf.

During the last 16 months of my Mother's life she was confined to a bed, unable to move days with Cee, turning & etc each day. She had only 1 bed sore - very small on her buttock. Not even healing the day she died.

I feel your Cream alleviated almost all suffering for her & cannot say enough about the Cream. A great break thru for me. Has been saving me on my Skingale balmy with medication from my Dr's.

It's wonderful stuff and when I dropped by Thrupp Drug this afternoon to buy other medication I asked if they shelved it. No - I told them they should - & phoned least my story & said they would probably order some using Whitman ID # 610658 for ordering.

If you have any other products I will let me know. I am the Credit Manager for an educational film company when we deal with Business films daily - produce & distribute & these kinds of things are wonderful to pass on to kids and young folks plus girls in the field for Pruning Home.

Thanks again for the info.
